

HEALTH & SAFETY

WHY JFA, INC.?

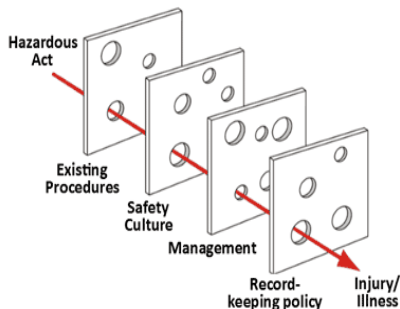

JFA, Inc. are trained experts in the field of health and safety with the ability to provide comprehensive assessments of your business to ensure compliance with local, state, and federal regulations. Our mission is to reduce your workers' compensation costs, compliance fines, illnesses, and injuries.

Not every workplace poses the same hazards. Our approach is customized to fit your industry and needs. We provide safety solutions which aid in both short term mediation and also help maintain long term sustainability. Our aim is to develop proactive safety practices that improve your safety performance.

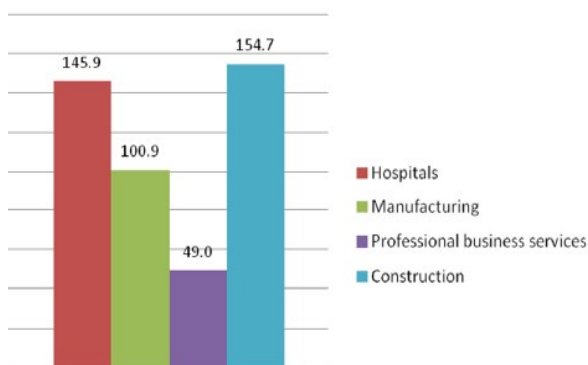

WHY CARE ABOUT HEALTH & SAFETY?

No matter how big or small your business is, employee safety is critical. There is clear evidence that effective **health and safety management** contributes directly to **overall business success**.

The 'Swiss Cheese' model illustrates health and safety incidents as the result of a number of shortcomings (holes) that overlap in a given scenario.

The Bureau of Labor Statistics identified hospitals and the construction industry as the leading source of injuries and illnesses resulting in days away from work.

JFA PROVIDES OSHA COMPLIANCE AUDITS & OTHER CONSULTING SERVICES TO A VARIETY OF INDUSTRIES

Healthcare Facilities:

- 5 key target enforcement areas identified by OSHA: Musculoskeletal disorders relating to patient or resident handling, workplace violence, blood borne pathogens, tuberculosis, slips, trips, and falls
- Healthcare sectors with specific regulations: clinicians, home healthcare, hospitals, laboratories, dentistry, nursing homes

Numerous other Requirements apply to all Businesses & Industries:

- Means of egress, Electrical standards, Emergency action plan, Fire Safety Standards, Personal protective equipment, Specific chemical hazards, OSHA recordkeeping, etc.

WHAT ARE THE ADVANTAGES?

Accidents and illnesses cost you money, in lost time, lost skills, insurance premium increases, legal proceedings, etc. The benefits of implementing a successful safety program can be numerous. We can help you develop proactive safety practices that improve your safety performance. Some benefits include:

- Reduced Injury Rate
- Improved Staff Morale and Motivation
- Reduced Absenteeism
- Reduced Costs
- Reduced Likelihood of OSHA Fines
